

# Broaden Your CLM Team With Our CLM Team

## Do More, Adapt Quickly, and Deliver Better Value with CLM

Research shows that companies with the most successful CLM systems have dedicated Agiloft administrators. Admins serve a critical role helping their organizations optimize contracts and enable better business processes.

### The Advantages of an Admin

An Agiloft CLM admin is responsible for managing and maintaining their organization's Agiloft system.

#### WITH AN ADMIN IN PLACE, YOU CAN:

Continue to improve processes that achieve tangible boosts in efficiency and productivity

Ensure that contract data is transformed into business-critical intelligence

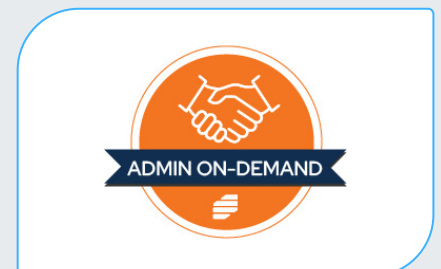

Deliver more strategic value and optimize wider business outcomes

Make the Agiloft platform – and the whole organization – more adaptable to changing market conditions and business needs

### Resources Tight? Try an Admin On-Demand

While Admins are critical to the health, performance, and security of the contract management system, not every organization has the time or resources for a dedicated admin. That's why Agiloft is introducing the Admin On-Demand program – to help you get the most from your Agiloft investment.

Agiloft Admins work hard to deliver efficiency and productivity in your organization; their work is a balance of management and consulting. They understand issues and offer creative solutions, making Agiloft users happier and businesses more efficient.
