

Why Agiloft?

## The Best of Both Worlds

Why choose between a packaged application that doesn't fit and an expensive custom solution? With Agiloft, you get best of both worlds: an affordable, rapidly deployed solution that is completely customizable and fits your business like a glove.

With out-of-the-box templates for Contract Management, Help Desk, Customer Support, and other standard business processes, you can go live quickly with minimal effort, with all of the features needed for a scalable, enterprise-ready system.

### Endless Adaptability

Need to automate a complex, non-standard process? Agiloft is built on an adaptive platform that is quick and easy to customize, so you can map your processes—not someone else's idea of what your processes should be. With Agiloft, you can quickly build your own custom, fully-integrated solution, without writing a single line of code.

You can start with one application and easily add new functions as your needs change, which means lower risk of outgrowing your system. All applications run on a single consolidated platform, so information flows freely throughout your entire organization.

With Agiloft, you get a no-compromise, fully extensible solution that dynamically adapts as your business evolves.

With Agiloft, you can quickly build your own custom, fully-integrated solution, without writing a single line of code.
